Olivier Delaigue is a research data scientist at INRAE since 2006. He received a MSc degree in biostatistics applied to ecology from the University of Lyon in 2006. He began his career in the field of hydro-ecology and is now continuing his work in the field of hydrology (data management, Geographical Information Systems, development of modelling tools). He is responsible for the development of the widely-used airGR hydrological package in R. He is also lecturer at Sorbonne University and at École des ponts ParisTech.
